SUMMARY

As a software developer, I have a proven track record of delivering apps to live users across the globe. I am passionate about problem-solving and derive satisfaction from providing innovative solutions to real-world issues. My unwavering commitment to continuous learning and adaptability guarantees exceptional results for every project, ensuring that the applications I create not only meet but exceed users' expectations.

KEY COMPETENCIES

Fast learning	Great team player	Strong interpersonal skills
Critical thinking skills	Excellent problem solving skills	Proactive and self-motivated
Willingness to learn	Result oriented	Technical writing and documentation

TECH STACK & SKILLS

Typescript, JavaScript	Web3 js, Ethers js	HTML
React, Next js	Node js, Express js	Electron
Flutter, Dart	Prisma	CSS, SASS, Tailwind
CI/CD	Mongo DB, Firebase, Supabase	Responsive design
React Native	SQL, NoSQL	Smart contract integration
HTML	Performance optimization	Agile software development
Redux, GetX, Zustand	Cloudflare, Vercel	

PROFESSIONAL EXPERIENCE

Vapourware Studios

Feb 2019

Lead Software Developer

- Led development of custom enterprise-level applications for a wide range of clients
- Collaborated closely with clients to deliver tailored solutions that met their specific needs
- Focused on developing responsive, user-friendly interfaces
- Managed the entire software development lifecycle from start to finish, including production oversight
- Optimized performance and efficiently tackled any troubleshooting issues.

TV Anywhere Africa

Oct 2022

Software Developer

- Built scalable movie streaming web applications serving over 10,000 monthly active usersTranslated UI designs into functional applications
- Worked closely with UI & UX designers in translating Figma designs into functional applications
- Integrated payment systems into apps using Flutterwave, Paystack, and the MTN MOMO payment gateways for purchasing and subscriptions
- Developed a custom internal HLS web video streaming player with DRM support
- Integrated payment systems into apps using Flutterwave, Paystack, and the MTN MOMO payment gateways for purchasing and subscriptions
- Expanded application functionality by integrating external REST APIs
- Collaborated closely with clients to deliver tailored solutions that met their specific needs
- Participated in daily stand-ups, sprint planning, and retrospectives, ensuring on-time, high-quality code delivery

Lead Frontend Developer

- Partook in the development of two successful NFT projects which incurred about \$30,000 in revenue
- Successfully deployed smart contracts to the ethereum blockchain
- Integrated smart contracts and other third-party web3 tools into decentralized applications
- Engaged in daily scrum meetings to ensure project targets were met and exceeded
- Conducted code reviews to help improve code quality and a cleaner codebase

Desence Co.

Feb 2021

Software Developer

- Developed highly performant and scalable applications for large and small-scale businesses
- Incorporated agile methodologies across projects for on-time delivery
- Prioritized responsive mobile-first interfaces and worked closely with UI designers to make sure application meets client needs
- Optimized performance, resolved issues and implemented custom user features for seamless experiences

Clever Programmer

Feb 2022

Web3 Frontend Developer

- Developed decentralized blockchain applications for youtube and other educational platforms
- Demonstrated the adaptability and potential of decentralized systems by replicating popular apps such as Airbnb, Spotify, Uber and Netflix on the blockchain
- Collaborated with educators and content creators to simplify difficult coding concepts and make tutorials more engaging and accessible, which helped grow the web3 coding community
- Conducted code reviews and provided constructive feedback to improve code quality and promote team collaboration

Hashnode

Feb 2022

Technical Writer

- Authored blog content for Hashnode's official web3 blog.
- Educated my readers on how the blockchain works
- Conducted extensive research and published articles on a variety of web3-related topics
- Wrote how-to guides and tutorials on building real-world web applications that utilizes blockchain technology

Coral App (Contract)

Jan 2023

Developer Relations

- Tracked and documented all user issues and feedback
 - Moderated and maintained the community's discord server
 - Acted as a liaison between engineers and end users by conveying feedback to engineers and ensuring that all user problems were addressed and feature requests were fulfilled
-
